

<b>Table 3. Factors That Alter Binding Of T4 To TBG</b>	
<b><i>Increase binding</i></b>	
Drugs	
	Estrogens
	Methadone
	Clofibrate
	5-fluorouracil
	Heroin
	Tamoxifen
	Raloxifene
Systemic factors	
	Liver disease
	Porphyria
	HIV infection
	Inherited
<b><i>Decrease binding</i></b>	
Drugs	
	Glucocorticoids
	Androgens
	L-asparaginase
	Salicylates
	Mefenamic acid
	Phenytoin
	Tegretol
	Furosemide
	Heparin
	Anabolic steroids
Systemic factors	
	Inherited
	Acute illness
	Non-esterified free fatty acids (NEFAs)
